

DEN GENETISKE KODE

OVERBLIK

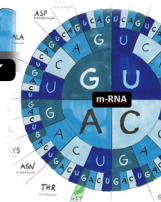

TRANSKRIPTION

CELLEKERNEN

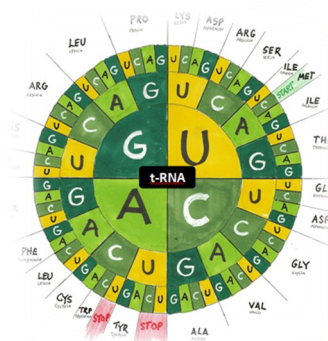

BEMÆRK LIGE at det ALTID er 3'-5' DNA strengen, der er skabelon for RNA strengen. Derfor syntetiseres RNA strengen altid i 5'-3' retningen!

m-RNA CODON = m-RNA TRIPLET

TRANSLATION

RIBOSOMET

ANTICODON = t-RNA CODON = t-RNA TRIPLET
